DIRECTIONS FOR USE

 It is a violation of Federal law to use this product in a manner
inconsistent with its labeling.
READ THIS LABEL: Read this entire label and follow all use
directions and use precautions. Use only for the sites, pests and
application methods described on this label.

USE RESTRICTIONS:

 This bait station may be used in areas accessible to children and
pets, consistent with all use restrictions and other requirements
indicated on this label. Do not apply further than 50 feet from home
or building.

 For control only of house mice. This bait station can only be refilled
with the block bait sold with this station. **TOMCAT MOUSE KILLER I**
must be used in and around buildings consistent with all use
restrictions and other requirements indicated on this label. Do not
place this bait station or stored block bait in any area where there is a
possibility of contaminating food or surfaces that come into direct
contact with food. Store bait block refills out of reach of children and
pets.

SELECTION OF TREATMENT AREAS: Determine areas where
house mice will enter their food and consume the bait. Generally,
these areas are along walls, by ground openings, in corners and
concealed places.

APPLICATION DIRECTIONS:

 While wearing gloves, place one block of bait in the bait station. One
additional GLASS/PLASTIC AND TEXT: Place the bait station at highest
point of activity along a wall or in corner where mice or their signs
have been seen. If additional baits are to be used, place bait
stations at 6 to 12 foot intervals. While wearing gloves, replace bait
in bait station when bait is consumed or contaminated. Maintain an
uninterrupted supply of fresh bait for at least 15 days or until signs
of mouse activity cease in infested areas.

 Follow-up: Wearing gloves, collect and properly dispose of any
unused bait or carcasses. To discourage reinfestation, eliminate
food, water and harborage as much as possible. If reinfestation
does occur, repeat treatment.
